

International Triumph Show & Spares Day, NAC Warwickshire

by Jim Webb

Our theme for this one-day show was the Round Britain Reliability Run and the three cars that we displayed depicted previous years and their respective charities by replacing the stickers on the sides of the cars. They were: Macmillan Cancer Relief, Children with Leukaemia, and, of course, last year's charity, Multiple Sclerosis Society.

Duncan and Steve Stone provided us with their early red Stag all the way up from the Bournemouth area – our thanks to them for that, whilst Chris Gant brought along his very nice two-tone Vitesse Convertible (Chris loves his car, treats it like a baby – and why not!). Our third car was that of Graham Ramsay in the form

of a Mk.1 GT6 that is now used every day and took part in the last RBRR. This car was the subject of a complete rebuild over the last two or three years and it was suggested that any faults could be ironed out over a 48-hour period should the car take part. Graham and Richard Stubbs took up the challenge and duly completed the trip with no problems. Our thanks to all three owners for displaying their cars and to everyone who helped with the stand – John, Dennis, Mel, Bob, Dave, Tim, Keith, John & Bridget, Derek and, of course, you members of the Club who visited the stand on Sunday 2 February.

Club Triumph National Day

Brooklands Museum, Weybridge, Surrey

31 August 2003
