

**C. T. 2019 Table Top Rally**  
**Section 3**  
**(Coloured Roads Only)**

This section follows on from where section 2 finished at grid reference 301465½ [PC3]. Remember, when finding grid squares, remember 'Eastings' which are the pale blue numbers running across the top and bottom of the map, before 'Northings', numbers running down the sides of the map. [Refer to Rally Navigation notes, page 6 for help with grid squares and page 7 for grid references]. It is also important that you go back and correct any plotting errors you have made previously on sections 1 & 2 before you start, otherwise this may affect where you can plot from here on.

From PC3 plot using the Herringbone to PC4.  
(See P12 of your Rally Navigation notes for info on Herringbones)

The section ends at the next junction [PC4]

- Q1 What is the grid reference of PC4?
- Q2 How many pubs did your route take you past on this section?
- Q3 What building have you just passed?
- Q4 Excluding the "26" you started on, what is the sum of the next 8 spot heights your route takes you over in this section?
